MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT: Policy Decisions Regarding Phaseout of OSA and
Disposition of its Residuals

1. This memorandum is to provide the Deputy Director for Science and Technology and other staffs with a single document containing the policy and disposition decisions on the residual assets of the Office of Special Activities. Because of the very complex makeup of OSA and the resultant complexities of the turn over of its assets to other units (inter and intra Agency), it is intended that the attachment hereto be used as a decision document by the DD/S&T and an implementation document by other staff agencies.

2. In order to make this memorandum as comprehensive as possible, the following are basic planning factors and assumptions to be used herein:

a. PLANNING FACTORS:

[Redacted]

25X1

(2) The 04/30/74 OSA Position Control Roster illustrates the makeup of OSA by subcomponent and staff function and is used as the basis for this paper. Not included in this PCR are [Redacted] Weather Detachment, contract personnel and commercial field service support technical representatives.

(3) OSA has deployed a forward detachment from Detachment G to [Redacted]

b. ASSUMPTIONS:

(1) OSA will be maintained as a complete unit until the United States Government [redacted] mutually establish a fixed date where the TACKLE Program is no longer operational. For the purpose of this paper, the termination of TACKLE operations date (hereafter referred to as T date) will be used as the date from which phaseout timing actions are referenced.

25X1

(2) The order of OSA phaseout activities will be:

[redacted]

25X1

(b) Deactivation, within 180 days of T date, of Detachment G and turn over of its assets to USAF and other Agency components.

(c) Headquarters staff elements will be dissolved on an incremental and opportune basis commencing with TACKLE termination, and contingent on the operational/ [redacted] situation at various points during the 180 day phaseout period.

25X1

(d) [redacted] activity, supported principally by Detachment G, may involve Agency personnel assets thru 31 December 1974.

25X1

(3) The total OSA phaseout activities are to be completed within 180 days of the established TACKLE termination date.

3. No attempt is made in this memo to reassign the OSA slots to other offices/staffs. This is due to the inherent problem of OSA being presently allotted (FY-75 and FY-76) much fewer slots than personnel assigned. However, subject to the DD/S&T's approval (or nonapproval) of the attached decisions, a reordering of available slots (OSA and others) should be the next order of priorities in this OSA phaseout activity.

DECISION #9:

Description: Budget & Finance Staff --

[Redacted]

25X1

[Redacted]

Discussion: The Budget & Finance Staff, like many of the OSA staff functions, is a multiunit support role. SPS, OEL, OD&E and others depend upon this OSA Staff for their financial and budgeting support. It is estimated that about two-thirds of this staff's work is for non-OSA activities and, as a result, it should continue to function after OSA no longer exists. As it appears that most of the staff's future work will be related to OD&E/NRO efforts, it should be integrated into the OD&E Structure. The ultimate size of this unit will be determined by the future needs and requirements of OD&E.

Recommendation: Integrate intact the OSA Budget & Finance Staff into OD&E. Leave in place at

DECISION #10:

Description: Contract Management Staff --

25X1

Discussion: The Contract Management Staff is essentially in the same position as the OSA Budget & Finance Staff, in that it supports other offices than OSA. Its primary function is to serve as the NRO Contracting Office for Agency/USAF Programs. The Contract Management Staff serves OEL, ORD and to some degree OD&E, in addition to its OSA contract efforts. This staff will continue to have a considerable amount of contract action; e. g., active contracts, administration phaseout of currently active contracts, termination actions, etc., over the next several years regardless of OSA termination. The ultimate size of this unit will be determined by the future needs and requirements of OD&E.

Recommendation: This staff be transferred intact (and in place) to OD&E.

DECISION #11:

Description: Communications Staff --

[Redacted]

25X1

Discussion: This staff is another of the OSA Staffs that function in a multioffice support role. Commo/OSA provides support to SPS, OEL, etc. Additionally, this staff provides management support to [Redacted] Commo staffers in the [Redacted]. Their support to these other offices will continue regardless of OSA's future status; however, at a reduced (approximately [Redacted] manning level.

Discussion: This office functions in direct support of the IDEALIST Program. Management and administrative responsibilities associated with the redistribution of a multi-million dollar inventory and return of commercial contractors to their companies from both detachments will generate unusual workloads on this staff during the entire phaseout period.

Recommendation: Dissolve this office subsequent to all phaseout actions and transfer personnel to DD/S&T for disposition.

Recommendation: This division should be dissolved and personnel returned to USAF and DD/S&T as applicable, for further disposition. However, if [Redacted] responsibilities continue beyond termination, it will be necessary to retain at least one military detailee in this division to monitor support requirements.

DECISION #14:

Description: Deputy for Materiel, Supply Division --

[Redacted]

25X1

Discussion: The Supply Division will be one of the most heavily involved offices within the Office of Special Activities during all aspects of the phaseout process. Redistribution of equipment and spares on Agency and Air Force logistics accounts will continue over the 180 day phaseout period. It must also be noted that a significant percentage of [Redacted] M&S Staffer's function is in direct support of air cargo movement requirements generated by several non-OSA Agency activities. These duties involve cargo packaging, manifesting, staging, scheduling and general liaison with the Agency Depot, and will require the attention of one individual after the dissolution of OSA.

Recommendation: Retain this division intact until both Agency and Air Force accounts are settled and closed out. Subsequently return [Redacted] personnel to applicable parent services, and reassign the [Redacted] Supply Assistant, GS-09, to OEL support.

Phaseout Timing: Personnel will be released during the final days of the 180 day period after T-date has been established.

This division can be dissolved upon the directed transfer of IDEALIST primary mission assets, provided that avionics responsibility for [Redacted] activities is also terminated. These personnel are provided to OSA by the Office of ELINT.

Recommendation: This division be dissolved and personnel returned to OEL for disposition.
